

DEUTERATED MOLECULES

Zeochem AG is a subsidiary of CPH Chemie + Papier Holding AG, a Swiss public company founded back in 1817.

Since the 1970's and on the basis of an outstanding professional expertise, Zeochem (formerly known as CU Deutero + Agro) manufactures deuterated compounds used as solvents in NMR spectroscopy and as building blocks in active pharmaceutical ingredients as well as for the production of organic light-emitting diodes.

Zeochem manufactures and sells various key intermediates up to tons quantities

- Acetone-d₆
- Benzene-d₆
- Chloroform-d₁
- Dimethylsulfoxide-d₆ (DMSO-d₆)
- Methanol-d₄
- Tetrahydrofuran-d₈ (THF-d₈)

Examples of other important products

- Acetonitrile-d₃
- Bromobenzene-d₅
- Dichloromethane-d₂
- Dimethylformamide-d₇ (DMF-d₇)
- Deuterium (Gas)
- Ethanol-d₆
- Iodomethane-d₃
- Pyridine-d₅
- Sodium deuterioxide in Deuterium oxide
- Tetrachloroethane-d₂
- Toluene-d₈
- Trifluoroacetic acid-d₁ (TFA-d₁)

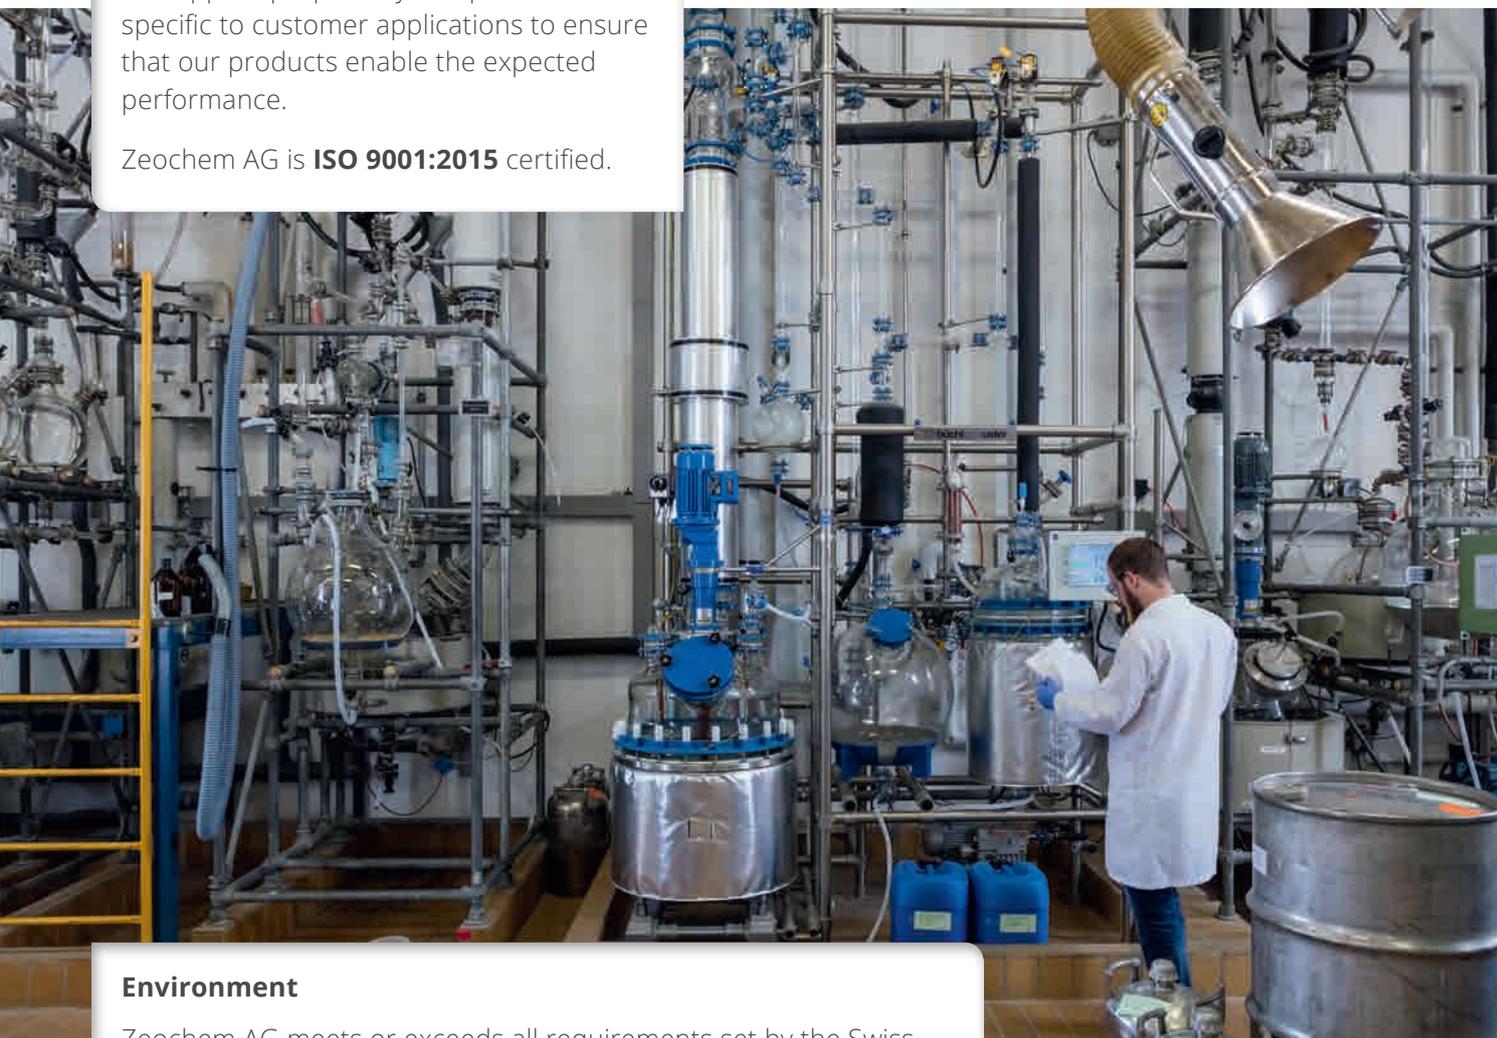

To receive the entire list of deuterated products available from Zeochem please contact us at info@zeochem.ch.

Quality

Our products are analyzed and certified against specifications by the quality control lab. Zeochem AG uses its own test methods and applies proprietary test procedures specific to customer applications to ensure that our products enable the expected performance.

Zeochem AG is **ISO 9001:2015** certified.

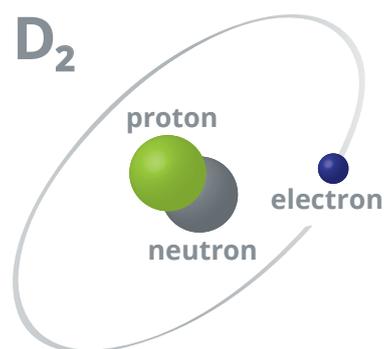

Environment

Zeochem AG meets or exceeds all requirements set by the Swiss authorities and regards the careful use of natural resources and safe production processes, as well as ensuring minimal pollution, among its critical goals. The company is a member of the Swiss Private Sector Energy Agency and is committed to the principles of «Responsible Care».

Manufacturer

Deuterated solvents are manufactured since the 1970's by Zeochem (formerly known as CU Deutero + Agro) in Switzerland.
